

Rishi T

First-Year CSE Student · Full-Stack & AI Developer

+91 9176034303 rishi.thyagu@gmail.com github.com/Rishi-thyagu linkedin.com/in/rishi-thyagu

SUMMARY

First-year Computer Science student at Rajalakshmi Engineering College with practical experience building AI-integrated full-stack web applications. Creator of HireSync — a four-tool AI career platform powered by HTML, CSS, JavaScript, and the Groq API. Passionate about engineering real products, LLM integration, and clean backend design. Actively seeking a software engineering internship in AI, backend, or full-stack development.

TECHNICAL SKILLS

Languages & Frontend: Python JavaScript C HTML CSS Bootstrap

Backend & Database: REST APIs MySQL

AI & Tools: Groq API LLM Integration Git GitHub VS Code

Concepts: Data Structures & Algorithms Full-Stack Development OOP

PROJECTS

HireSync — AI-Powered Career Toolkit for Students

HTML/CSS JavaScript Groq API

github.com/Rishi-thyagu/hiresync · hiresync-app.vercel.app · Personal Project · 2025 – Present

- Engineered four AI-powered tools — JD Matcher, Resume Rater, ATS Checker, and Cover Letter Generator — built as a serverless frontend-only application
- Built a keyword-matching algorithm to compare job descriptions against resumes, surfacing results through a color-coded scoring UI with real-time word counters
- Integrated Groq API directly from the browser for AI-generated analysis; built as a fully serverless architecture with no backend server
- Shipped a standalone marketing landing page to present HireSync as a complete, student-facing product
- Deployed live on Vercel at hiresync-app.vercel.app — fully serverless, zero-backend production deployment

Portfolio Website — Personal Developer Portfolio

HTML/CSS JavaScript

github.com/Rishi-thyagu · rishi-t.vercel.app · 2025

- Designed and built a responsive portfolio from scratch, iterating through multiple design systems before finalising a clean typographic layout with Space Mono and Inter fonts and a green accent system
- Showcased live projects, GitHub, and tech stack to support internship applications

EDUCATION

B.E. Computer Science and Engineering

2025 – 2029

Rajalakshmi Engineering College, Chennai, Tamil Nadu

Coursework: Data Structures & Algorithms OOP Database Management Discrete Mathematics

CURRENTLY LEARNING & BUILDING

- Strengthening Data Structures & Algorithms in C and Python; solving problems on LeetCode to prepare for technical interviews
- Registered on the AICTE National Internship Portal (Reg. No. 250701593) and actively applying for engineering internships
